

SL 368 Improvements Project City of Alamo Heights

SAN ANTONIO DISTRICT
CSJ: 0016-08-041

Overview

The Texas Department of Transportation (TxDOT) San Antonio District (SAT) proposes improvements along SL 368 in the City of Alamo Heights from Burr Road to North New Braunfels Avenue with additional storm sewer improvements along Patterson Avenue. The proposed project would:

- Upgrade the storm sewer system to address flooding issues.
- Improve safety by removing angled street parking and reconstructing driveways and side streets.
- Improve traffic operations by removing inconsistent medians.
- Accommodate bicycles and pedestrians by upgrading existing sidewalks and installing shared use paths in compliance with Americans with Disabilities Act (ADA) requirements and Public Right of Way Accessibility Guidelines (PROWAG).

Project Location Map

Project Schedule

- Draft Design Schematic
- Draft Environmental Reports

Spring 2025

- In-Person Open House with Virtual Option

Fall 2025-2027*

- Environmental Clearance
- Complete Final Design
- Right-of-Way Acquisition

Late 2027*

- Start Construction

** This timeline is preliminary and subject to change.*

Public Involvement

The purpose of public involvement is to provide information and gather input from the public. TxDOT is committed to working closely with the public to ensure that community members have the opportunity to comment, voice concerns, and ask questions. The preliminary public involvement schedule included technical workgroup meetings from fall 2022 to spring 2025, and an in-person open house with a virtual option in spring 2025.
